

### **2.5.1 - The mechanism of internal assessment is transparent and robust in terms of frequency and mode.**

The college has adopted a centralized Continuous Internal Evaluation (CIE) system to assess students' performance which is transparent and robust. The college appoints the Controller of Examination and prepares the examination policies for conducting internal examinations as per the rules and regulations of the Savitribai Phule Pune University. The institute has faculty-wise internal examination committees which are actively involved in the CIE process. For the Continuous Internal Evaluation (CIE), the college conducts unit tests and mid-term examinations. Question papers are made by the respective faculty members as per the university rules. During the examination, invigilators are assigned to each class. Besides, the department conducts various other graded and non-graded methods of assessment such as student seminars, quizzes, group discussions, class tests, and home assignments at regular intervals. Students are informed about Continuous Internal Examinations well in time. To maintain transparency, the tentative schedule for the graded internal examinations is mentioned in the academic calendar and displayed on the website. Moreover, the exact dates are notified to students well in advance on social networking sites and by displaying them on the notice board. Schedules are also displayed on the college website. The pattern of the examination is also communicated to students. If needed supplementary or re-examinations are conducted for the absent students as per the university guidelines. The transparency of the continuous internal evaluation is maintained by the college examination committee throughout the year.
